Review Report of Independent Auditors

To Audix Corporation

Instruction

We have reviewed the accompanying consolidated balance sheets of Audix Corporation and its subsidiaries (the "Company and its subsidiaries") as of June 30, 2026 and 2025, and the related consolidated statements of comprehensive income for the three-month and six-month periods ended June 30, 2026 and 2025 and consolidated statements of changes in equity and cash flows for the six-month periods ended June 30, 2026 and 2025, and notes to the consolidated financial statements, including the summary of material accounting policies (together "the consolidated financial statements"). Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" as endorsed and became effective by Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Standard on Review Engagements 2410, "Review of Financial Information Performed by the Independent Auditor of the Entity" of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing of the Republic of China and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As explained in Note 4(3), the financial statements of certain insignificant subsidiaries were not reviewed by independent auditors. Those statements reflect total assets of NT$2,533,677 thousand and NT$2,288,696 thousand, constituting 26.07% and 27.44% of the consolidated total assets, and total liabilities of NT$358,510 thousand and NT$308,859 thousand, constituting 10.64% and 10.12% of the consolidated total liabilities as of June 30, 2026 and 2025, respectively; and total comprehensive income of NT$114,026 thousand, NT$2,243 thousand, NT$191,156 thousand and NT$61,606 thousand, constituting 29.30%, (0.37)%, 27.83% and (18.64)% of the consolidated total comprehensive income for the three-month and six-month periods ended June 30, 2026 and 2025, respectively. As explained in Note 6(8), the financial statements of certain associates and joint ventures accounted for under the equity method were not reviewed by independent auditors. Those associates and joint ventures under equity method amounted to NT$0 thousand and NT$43,673 thousand as of June 30, 2026 and 2025, respectively. The related shares of profits from the associates and joint ventures under the equity method amounted to NT$0 thousand, NT$1,435 thousand, NT$1,609 thousand and NT$2,645 thousand for the three-month and six-month periods ended June 30, 2026 and 2025, respectively. The information related to above subsidiaries, and associates and joint ventures accounted for under the equity method disclosed in Note 13 was also not reviewed by independent auditors.

Qualified Conclusion

Based on our reviews, except for the effect of such adjustments, if any, as might have been determined to be necessary had the financial statements of certain insignificant subsidiaries, associates and joint ventures accounted for using equity method and the information been reviewed by independent auditors described in the preceding paragraph, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of June 30, 2026 and 2025, and their consolidated financial performance for the three-month and six-month periods ended June 30, 2026 and 2025 and cash flows for the six-month periods ended June 30, 2026 and 2025, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" as endorsed and became effective by Financial Supervisory Commission of the Republic of China.

AUDIX CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the six-month periods ended June 30, 2026 and 2025

(Amounts are expressed in thousands of New Taiwan Dollars unless otherwise stated)

1. History and organization

AUDIX CORPORATION (the "Company"), established on August 7, 1980, was a distributes of semiconductor, LCM and other electronic information communication components. In December 1989, the Company expanded business in design, manufacturing and processing of precision molds and plastic injection products. After merging Audix Singapore (pte) Co., Ltd. on July 31, 1990, the Company included the distribution of electronic parts in its business profile. In 1991, the Company expanded its business in safety specification test and certification.

Since October 4, 1999, the Company had been listed on the Taipei Exchange. Since September 17, 2001, the Company has approved by the Taiwan Stock Exchange ("TWSE") to listed on TWSE. The Company's registered address and main operating site is located at No. 8, Lane 120, Sec. 1, Neihu Rd., Taipei, Taiwan, R.O.C.

2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements of the Company and its subsidiaries (the Group) for the six-month periods ended June 30, 2026 and 2025 were authorized for issue by the Board of Directors on August 7, 2026.

3. Newly issued or revised standards and interpretations

(1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission ("FSC") and become effective for annual periods beginning on or after January 1, 2026. The adoption of these new standards and amendments had no material impact on the Group.

(2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board ("IASB") which have been endorsed by FSC, and not yet adopted by the Group as at the date when the Group's financial statements were authorized for issue, are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 18 "Presentation and Disclosure in Financial Statements"	January 1, 2027 (Note)
b	Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)	January 1, 2027
c	Translation to a Hyperinflationary Presentation Currency (Amendments to IAS 21 and IAS 29)	January 1, 2027
d	Amendments to the Fair Value Option for Investments in Associates and Joint Ventures (Amendments to IAS 28)	January 1, 2027 (Note)

Note: On September 25, 2025, the FSC announced in a press release that Taiwan will adopt IFRS 18 in 2028. In addition, entities in Taiwan with a need for early adoption may elect to early adopt IFRS 18.

(a) IFRS 18 "Presentation and Disclosure in Financial Statements"

IFRS 18 replaces IAS 1 Presentation of Financial Statements. The main changes are as below:

(i) Improved comparability in the statement of profit or loss (income statement)
IFRS 18 requires entities to classify all income and expenses within their statement of profit or loss into one of five categories: operating; investing; financing; income taxes; and discontinued operations. The first three categories are new, to improve the structure of the income statement, and requires all entities to provide new defined subtotals, including operating profit or loss. The improved structure and new subtotals will give investors a consistent starting point for analyzing entities' performance and make it easier to compare entities.

(ii) Enhanced transparency of management-defined performance measures
IFRS 18 requires entities to disclose explanations of those entity-specific measures that are related to the income statement, referred to as management-defined performance measures.

(iii) Useful grouping of information in the financial statements
IFRS 18 sets out enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes. The changes are expected to provide more detailed and useful information. IFRS 18 also requires entities to provide more transparency about operating expenses, helping investors to find and understand the information they need.

(b) Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)

This new standard and its amendment permit subsidiaries without public accountability to provide reduced disclosures when applying IFRS Accounting Standards in their financial statements. IFRS 19 is optional for subsidiaries that are eligible and sets out the disclosure requirements for subsidiaries that elect to apply it.

(c) Translation to a Hyperinflationary Presentation Currency (Amendments to IAS 21 and IAS 29)

The amendments include:

(i) Clarify that when the entity's functional currency is that of a non-hyperinflationary economy but its presentation currency is the currency of a hyperinflationary economy, the entity shall translate its results and financial position using the closing rate at the date of the most recent statement of financial position.
(ii) In the above circumstances, when the presentation currency ceases to be hyperinflationary economy, the entity shall not retranslate amounts that arose before the beginning of the reporting period.
(iii) When the entity's functional currency and presentation currency are the currency of a hyperinflationary economy, the entity shall apply the relevant accounting treatment in accordance with paragraph 34 of IAS 29.

(d) Amendments to the Fair Value Option for Investments in Associates and Joint Ventures (Amendments to IAS 28)

The amendments are:

(i) Clarify that the entity that has a main business activity of investing in particular types of assets (as set out in paragraph 49(a) of IFRS 18) is eligible to elect the fair value option in IAS 28; and
(ii) Require the entity to apply the amendments to IAS 28 at the same time, and on the same basis, as it applies IFRS 18.

The abovementioned standards, amendments and interpretations have been issued by the IASB, endorsed by the FSC, and are effective for annual reporting periods beginning on or after January 1, 2027. As the Group is still currently determining the potential impact of the new or amended standards and interpretations listed under (a)~(d), it is not practicable to estimate their impact on the Group at this point in time.

(3) Standards or interpretations issued, revised or amended, by International Accounting Standards Board ("IASB") which have not been endorsed by FSC, and not yet adopted by the Group as at the date when the Group's financial statements were authorized for issue, are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 20 "Regulatory Assets and Regulatory Liabilities"	January 1, 2029

(a) IFRS 10 "Consolidated Financial Statements" and IAS 28"Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

(b) IFRS 20 "Regulatory Assets and Regulatory Liabilities"

This Standard sets out the requirements for the recognition, measurement, presentation and disclosure of regulatory assets, regulatory liabilities, regulatory income and regulatory expense, and will replace IFRS 14 Regulatory Deferral Accounts.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group's financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Group is still currently determining the potential impact of the new or amended standards and interpretations listed under (a)~(b), it is not practicable to estimate their impact on the Group at this point in time.

4. Summary of Significant Accounting Policies

(1) Statement of compliance

The consolidated financial statements of the Group for the six-month periods ended June 30, 2026 and 2025 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations") and IAS 34 Interim Financial Reporting, as endorsed and became effective by the FSC.

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars ("NTD") unless otherwise stated.

(3) Basis of consolidation

Preparation principle of consolidated financial statement

Except for the accounting policies listed below, the same principles of consolidation have been applied in the Company's consolidated financial statements as those applied in the Company's consolidated financial statements for the year ended December 31, 2025. For the principles of consolidation, please refer to the Company's consolidated financial statements for the year ended December 31, 2025:

(a) Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted and disclosed for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events.

(b) Interim period income tax expense is accrued using the tax rate that would be applicable to expected total annual earnings, that is, the estimated average annual effective income tax rate applied to the pre-tax income of the interim period. The estimated average annual effective income tax rate only includes current income tax. The recognition and measurement of deferred tax follows annual financial reporting requirements in accordance with IAS 12. The Group recognizes the effect of change in tax rate for deferred taxes in full if the new tax rate is enacted by the end of the interim reporting period, by charging to profit or loss, other comprehensive income, or directly to equity.

According to the Company Act, the additional paid-in capital shall not be used except for offsetting the deficit of the Company. When a company incurs no loss, it may distribute the additional paid-in capital generated from the excess of the issuance price over the par value of share capital and donations. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

C. Retained earnings and dividend policy

According to the Company Articles of Incorporation, current year’s earnings, if any, shall be distributed in the following order:

(a) Payment of all taxes and dues;
(b) Offset prior years’ operation losses (Includes adjustment of unallocated surplus amount);
(c) Set aside 10% of the remaining amount after deducting items (a) and (b) as legal reserve, but not when the accumulated statutory surplus reserve has reached the total paid-in capital of the company;
(d) Set aside or reverse special reserve in accordance with law and regulations; in the case of special surplus reserves, the shortfalls in the provision of "net increase in fair value of investment real estate accumulated in the previous period" and "net deductions of other equity gains accumulated in the previous period" should be included in the amount of the special surplus reserve by the same amount from the undistributed surplus of the previous period before the distribution of the surplus, and if there is still a shortfall, the amount other than the net after-tax profit of the current period shall be added to the amount of the undistributed surplus in the current period; and
(e) If there is surplus (hereinafter referred to as "current year earnings") and undistributed surpluses at the beginning of the same period (including adjustments to the amount of undistributed surpluses), the Board of Directors shall, in accordance with the dividend policy, formulate a surplus distribution proposal and request the shareholders' meeting to resolve the distribution of shareholders' dividends.

The shareholder dividend assigned in the preceding paragraph or all or part of the statutory surplus and capital accumulation as required by law shall be issued in cash; the board is authorized to report the dividend distribution to the shareholder’s meeting upon adoption of a resolution by a majority voting of the directors present at a board meeting attended by two-thirds of the directors of the Company.

The Company's dividend policy considers its current and future development plans, capital requirements, competitive conditions and changes in the industrial environment. The Company's surplus distribution case is prepared taking into account the interests of shareholders and the long-term financial planning of the Company. The total annual shareholder dividend of the Company shall not be less than 50% of the current annual surplus.

The surplus of the preceding item is distributed in the form of cash or stock. In response to the growth of electronic technology innovation, the Company is now entering a stable growth period. Cash dividend is preferred when distributing surplus. Stock dividends can also be distributed. However, the portion of cash dividends shall not be less than 50% of the dividends allocated in the current year.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total authorized capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

According to existing regulations, when the Company distributing distributable earnings, it shall set aside to special reserve, from the profit/loss of the current period and the undistributed earnings from the previous period, an amount equal to “other net deductions from shareholders’ equity for the current fiscal year, provided that if the company has already set aside special reserve in the first-time adoption of the IFRS, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders’ equity. For any subsequent reversal of other net deductions from shareholders’ equity, the amount reversed may be distributed from the special reserve.

The FSC on March 31, 2021 issued Order No. Financial-Supervisory-Securities-Corporate-1090150022, which sets out the following provisions for compliance:
On a public company's first-time adoption of the IFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders’ equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside special reserve. For any subsequent use, disposal or reclassification of related assets, the Company can reverse the special reserve by the proportion of the special reserve first appropriated and distribute it.

As of June 30, 2026, December 31, 2025, and June 30, 2025, special reserve set aside for the first-time adoption of TIFRS amounted to $30,092 thousand.

Details of the 2025 and 2024 earnings distribution and dividends per share as approved and resolved by shareholders' meeting on May 29, 2026 and May 29, 2025, respectively, are as follows:

Please refer to Note 12 for more details on credit risk.

The credit risk for the Group's financial assets measured at amortized cost as of June 30, 2026, December 31, 2025 and June 30, 2025, was assessed as low (the same as the assessment result in the beginning of the period). Therefore, the expected credit loss was measured at an amount equal to twelve-month expected credit loss (loss rate 0%).

The Group measures the loss allowance of its receivables (including notes receivable、accounts receivable and non-accrual loans) at an amount equal to lifetime expected credit loss. The assessment of the Group's loss allowance as of June 30, 2026, December 31, 2025 and June 30, 2025 was as follows:

A. The accounts receivable include financial difficulties of counterparties, whose accounts aging more than 365 days. As of June 30, 2026, December 31, 2025 and June 30, 2025, the non-accrual loan that was assessed individually amounted to $6,445 thousand, $6,174 thousand and $5,619 thousand, respectively, with 100% of loss allowance appropriated.

B. As of June 30, 2026, December 31, 2025 and June 30, 2025, the total carrying amounts of the notes receivable amounted to $292,019 thousand, $313,579 thousand and $211,478 thousand, respectively. Among them, notes receivable in the amount of $1,014 thousand, $5,072 thousand and $516 thousand were provided for allowance for expected credit losses at 0.5% over 12 months, while the remaining notes receivable were provided for allowance for expected credit losses at 0%.

C. The remaining accounts receivable were divided into two groups, Group A and Group B, based on the customer's financial position and credit, and a provision matrix was used to measure loss allowance. The relevant information is as follows:

(2) Financial risk management objectives

The Group’s principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activates. The Group identifies measures and manages the aforementioned risks based on the Group’s policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market risk comprise currency risk and interest rate risk.

In practice, it is rarely the case that a single risk variable will change independently from other risk variables; there are usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency) and the Group's net investments in foreign subsidiaries.

The Group reviews its assets and liabilities denominated in foreign currency and enters into forward exchange contracts to hedge the exposure from exchange rate fluctuations. The level of hedging depends on the foreign currency requirements from each operating unit. As the purpose of holding forward exchange contracts are to hedge exchange rate fluctuation risk, the gain or loss made on the contracts from the fluctuation in exchange rates are expected to mostly offset gains or losses made on the hedged item. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Group.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as of the end of the reporting period. The Group's foreign currency risk is mainly related to the volatility in the exchange rates. The information of the sensitivity analysis is as follows:

When NTD strengthens/weakens against foreign currency USD by 1%, the profit for the six-month periods ended June 30, 2026 and 2025 is decreased/increased by $6,745 thousand and $5,199 thousand, respectively.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt instrument investment at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable loans and borrowings.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as of the end of the reporting period, including loans with variable interest rates. At the balance sheet date, an increase or a decrease of 10 basis points of interest rate could cause the profit for the six-month periods ended June 30, 2026 and 2025 to decrease/increase by $1,960 thousand and $1,797 thousand, respectively.

(4) Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from operating activities (primarily for accounts receivable and notes receivable) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit of the Group subject to established policy, procedures and controls relating to credit risk management. Credit limits are established for all counter parties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria, etc. Certain counter parties' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment and insurance.

As of June 30, 2026, December 31, 2025 and June 30, 2025, the top ten receivables from counter parties presented 47.11%, 54.75% and 41.34% of the total receivables of the Group, respectively. The credit centration risk of the remaining receivables was insignificant.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating. Consequently, there is no significant credit risk for these counter parties.

The Group adopted IFRS 9 to assess the expected credit losses. Except for the loss allowance of trade receivables measured at lifetime expected credit losses, the remaining debt instrument investments which are not measured at fair value through profit or loss, low credit risk for these investments is a prerequisite upon acquisition and by using their credit risk as a basis for the distinction of categories. The Group makes an assessment at each reporting date as to whether the debt instrument investments are still considered low credit risk, and then further determines the method of measuring the loss allowance and the loss rates.

Financial assets are written off when there is no realistic prospect of future recovery (the issuer or the debtor is in financial difficulties or bankruptcy).

(5) Liquidity risk management

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, highly liquid equity investments and bank borrowings. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

(7) Fair values of financial instruments

A. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Group to measure or disclose the fair values of financial assets and financial liabilities:

(a) The carrying amount of cash and cash equivalents, receivables payables refundable deposits, guarantee deposits received, and lease liabilities approximate their fair value due to their short maturities.

(b) For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.

(c) Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).

(d) Fair value of debt instruments without market quotations and bank loans are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the Taipei Exchange, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)

B. Fair value of financial instruments measured at amortized cost

The carrying amount of the Group's financial assets and financial liabilities measured at amortized cost approximate their fair value.

C. Fair value measurement hierarchy for financial instruments

Please refer to Note 12(8) for fair value measurement hierarchy for financial instruments of the Group.

(8) Fair value measurement hierarchy

A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date.
Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
Level 3 – Unobservable inputs for the asset or liability.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

B. Fair value measurement hierarchy of the Group's assets and liabilities

The Group did not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Group assets and liabilities measured at fair value on a recurring basis was as follows:

As of June 30, 2026:

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurements categorized within Level 3 of the fair value hierarchy was as follows:

As at June 30, 2026：

	Value techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets：					
At fair value through profit or loss					
Structured Deposit	Market approach	Pricing of structured deposit	Not applicable	Not applicable	Since structured deposit is essentially monetary transactions, the value is equivalent to the fair value.

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The Group’s finance department is responsible for validating the fair value measurements and ensuring that the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The department analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group’s accounting policies at each reporting date.

The Group's foreign currency transactions were denominated in multiple currency; therefore, the information of the foreign exchange (losses) gains of monetary assets and liabilities denominated by each currency was not applicable for disclosure. The Group's significant monetary financial assets and liabilities denominated in foreign currencies incurred foreign exchange (losses) gains of $(27,107) thousand and $2,028 thousand for the six-month periods ended June 30, 2026 and 2025, respectively.

The above information was disclosed based on the carrying amount of foreign currency (after conversion to functional currency).

(10) The information for notes receivable

The Group has entered into non-recourse factoring agreements with financial institutions for parts of notes receivable. In addition to transferring the contractual rights to the cash flow of these notes receivable, the Group is not required to bear the credit risk of non-collection (excluding for commercial disputes) in accordance with the terms of the agreements, meeting the criteria for derecognition of financial assets. The related transaction information is as follows:

As of June 30, 2026:

Clients	Sale amount	Amount advanced	Interest interval	Others
China Construction Bank Co., Ltd	$4,363	$-	-%	Provide notes CNY 929,891.1 to Clients.

China Construction Bank Co., Ltd.	$11,866	$-	-%	Provide notes CNY 2,640,198.57 to Clients.

As of June 30, 2025:

None.

The Group's counterparties in the factoring of notes receivable maintain strong credit quality. Furthermore, the Group engages with multiple financial institutions to mitigate concentration risk, and the probability of default is assessed as remote.

(11) Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholders' value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

13. Other disclosure

(1) Information at significant transactions

A. Financings provided to others: None.

B. Endorsements/guarantees provided to others: None.

C. Significant securities held: Please refer to table 1.

D. Total purchases from or sales to related parties of at least NTD 100 million or 20 percent of the paid-in capital: None.

E. Receivables due from related parities amounting to at least NTD 100 million or 20 percent of the paid-in capital: None.

F. Significant intercompany transactions between consolidated entities: Please refer to table 2.

B. Significant direct or indirect transactions with the investee, its prices, terms of payment and unrealized gain or loss: Please refer to table 2.

14. Segment information

For management purposes, the Group is organized into business units based on their products and services and has three reportable operating segments as follows:

(1) Channel Business: The department is mainly responsible for marketing electronic components.

(2) Manufacture Business: The department is responsible for the production of electronic components.

(3) Product Certification Business: The department is mainly responsible for services such as electronic product testing and certification.

No operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured based on significant accounting policies information consistent with those in the consolidated financial statements. However, income taxes are managed on a group basis and are not allocated to operating segments.

Transfer prices between operating segment are on an arm’s length basis in a manner similar to transactions with third parties.
